

# Erratum: Acoustics of magneto-electric antiferromagnets. Rhombohedral crystals [JETP 77(5), 868–873 (1993)]

E. A. Turov

The following corrections were reported by the author:

- (1) In the 2nd line of the abstract the word “centrosymmetric” must be replaced by “center-antisymmetric”.
- (2) In the line 7 from the bottom of p. 868, the 2nd column, the characters “:  $\bar{1}' \equiv \bar{1}$  )” must be omitted.
- (3) On p. 869 in the first column, in line 5 from the top, and in the 2nd column, in the lines 2 and 9 from the bottom, one has to put down  $\bar{1}^- 3_z^+ 2_x^-$  instead of  $\bar{1}^- 3_z^+ 2_x^-$ .
- (4) On the same page (the 2nd column) in line 15 from the bottom, the word “for” must be moved to the position before “TbPO<sub>4</sub>”.
- (5) On p. 870 in the first column, in the last line of the formula (20),  $\kappa_z$  has to be changed to  $\kappa_z^{-1}$ .
- (6) On p. 870 in the 2nd column, in the first line of the

formula (25),  $c_{41}$  (lower case) changes to  $\bar{C}_{14}$  (upper case). Then below

$\bar{C}_{41}$  changes for  $\bar{C}_{14}$ ,

and

$C_{41}$  changes for  $C_{14}$ .

On p. 570 in the 2nd column the inequality  $\gamma_0 l > 0$  changes to  $\gamma_0 l < 0$ .

(8) On p. 871 in the 2nd column, in the first line of the formula (38) inside square brackets, the term  $M_z^2$  has to be added.

(9) On p. 872, the 2nd column, in lines 12, 22, and 23 above the references, one has to change  $\bar{1}$  to  $\bar{1}^{-1}$ .
